

# Revere Copper Products, Inc

One Revere Park, Rome, NY, 13440-5561 (315) 338-2022

December 19, 2023

## RoHS Compliance Statement

All products manufactured by Revere Copper Products, Inc. comply with Directive 2015/863 (RoHS 3) and the Chinese issued Administrative Measure on the Control of Pollution Caused by Electronic Information Products (China RoHS). Specifically, the products do not exceed the allowable limits for the follow restricted substances:

• Lead (Pb)	0.1%
• Cadmium (Cd)	0.01%
• Hexavalent chromium (Cr(VI))	0.1%
• Mercury (Hg)	0.1%
• Polybrominated biphenyls (PBB)	0.1%
• Polybrominated diphenyl ethers (PBDE)	0.1%
• Bis(2-Ethylhexyl) phthalate (DEHP)	0.1%
• Benzyl butyl phthalate (BBP)	0.1%
• Dibutyl phthalate (DBP)	0.1%
• Diisobutyl phthalate (DIBP)	0.1%

### Lead

Lead is not intentionally added to any of our products. All products are analyzed and limits for the maximum allowable content are less than the limits stated above.

### Cadmium

Cadmium is not intentionally added to any of our products. All products are analyzed and limits for the maximum allowable content are less than the limits stated above.

### Hexavalent Chromium

The hexavalent oxidation state of chromium does not exist as part of a metal alloy.

### Mercury and its compounds

Mercury is not intentionally added to any of our products. The very low boiling point of mercury precludes its presence in our product due to the high melting point attained for casting. No analysis is performed.

### Polybrominated Biphenyls (PBB), Polybrominated Diphenyl Ethers (PBDE) including DecaBromoDiphenylEther (deca BDE)

These chemicals are not intentionally added to any of our products. The low boiling points of these chemicals preclude their presence in our product due to the high melting point attained for casting. No analysis is performed.

### Phthalates (DEHP, BBP, DBP & DIBP)

These chemicals are not intentionally added to any of our products. The low boiling points of these chemicals preclude their presence in our product due to the high melting point attained for casting. No analysis is performed.
